Control Your HIGH SUGAR
The Natural Way

Effect of GlucosCare® Tea on Human

2) Sensitize insulin gland so that it is able to convert sugar into energy

1) Stimulate pancreas in releasing insulin

3) Reduce sugar absorption at gastro-intestinal tract

Science behind the GlucosCare® Tea

1) Clinically tested and scientifically proven across races Singapore, Malaysia, Serbia

2) Toxicity and Stability Studies (SGS- Hong Kong)

Results: No toxic effects

A Simple Test on the Effectiveness of the Tea

1) Drink a small cup
of Herbal Tea[®]

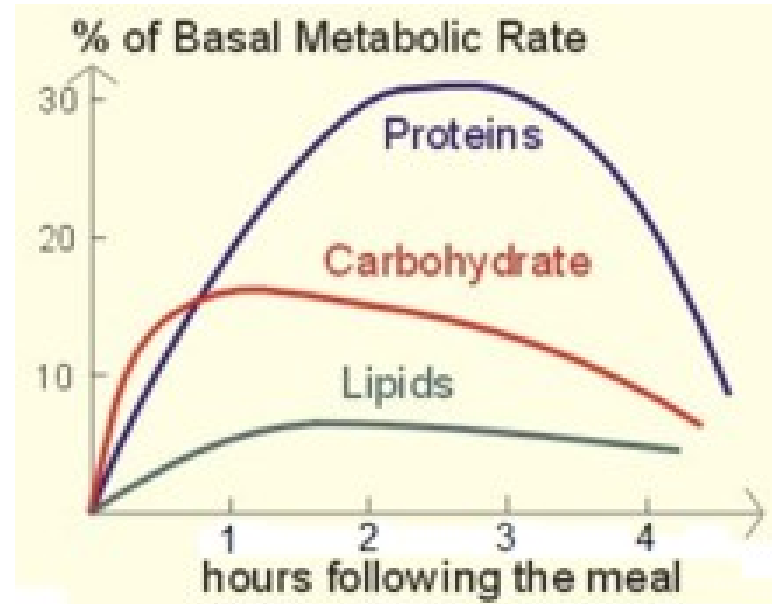

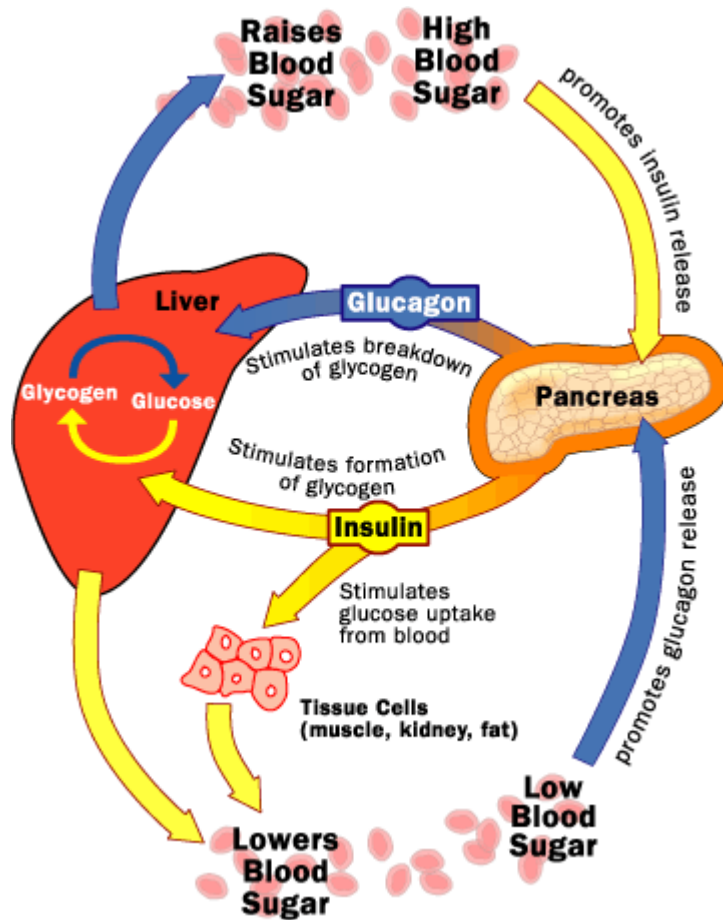

2) Taste some
sugar/ desserts

3) How do you
feel?

The Human Body

You will realize...

You will realize
that the
sweetness has
been **GREATLY
REDUCED!**

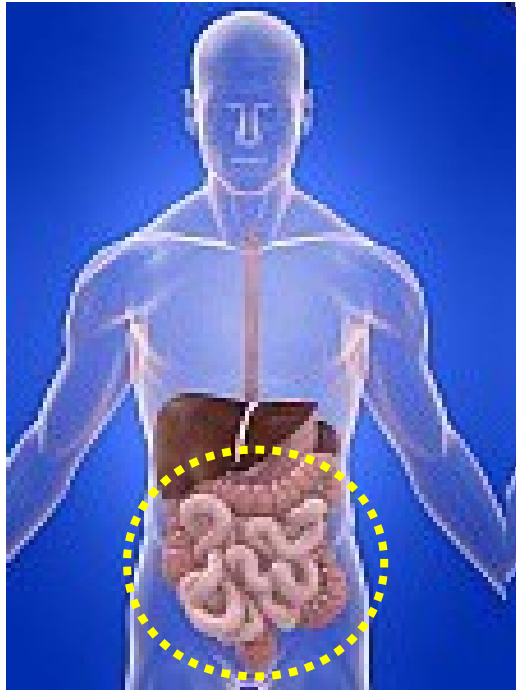

WHY?

Because...

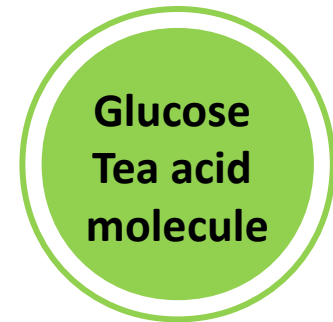

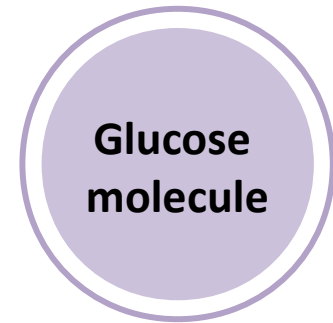

The GlucosCare Tea Acid has already filled the taste buds and lowers the sensitivity of sweetness of the candy!

and... It works the same way in your **intestine!**

In our intestine...

Glucose Receptor

- Active ingredient of GlucosCare[®] Tea - GlucosCare[®] Tea Acid
- Its molecules are similar in molecular structure of glucose.
- GlucosCare[®] Tea Acid Molecules is similar with the Glucose Molecular structure and can block glucose receptors in the intestine.
